CHECKLIST

# Riding Equipment Care Checklist

- [ ] Wipe mud and dirt from boots after every ride
- [ ] Inspect helmet shell for cracks and check harness straps for wear
- [ ] Condition leather boots regularly to keep the material supple
- [ ] Store boots upright with boot trees or newspaper inside
- [ ] Air-dry helmets in a ventilated space away from heat sources
- [ ] Replace your helmet after any fall or every few years of regular use
- [ ] Check boot stitching and soles for damage that needs repair
- [ ] Clean helmet padding and shell with mild soap and lukewarm water
